Judge Rules Increases Would Be Inflationary. Approves Injunction

SACRAMENTO (UPI) - A federal judge ruled Friday California could not pay its employes \$83 million in back salary, declaring it would undermine Congressional intent to halt runaway inflation.

In making the ruling, U.S. District Judge Philip Wilkins granted federal attorneys a preliminary injunction halting pay raises to 80,000 state employes until a similar case is decided in the U.S. Supreme

The federal government filed suit against the state to stop back raises between July 1, 1973 to April 1, 1974.

State attorneys argued the raises would come after the expiration of the Economic Stabilization Act and the federal government had no say in the matter.

Talmadge R. Jones, assistant state attorney general, said he would appeal the decision to the Temporary Emergency Court of Appeals in Washington, D.C., contending the Federal Cost of Living Council's authority stopped April 30 when anti-inflationary measures expired.

Wilkins said he agreed with Federal Attorney William White who said if the state pays the back raises "it would undermine congressional intent and the Economic Stabilization

Moss, in a statement read by an aide in his absence, said a delay in application of the higher rates announced after protests by power users did not change "the basic unfairness of the rate increase."

The rate increases, announced Nov. 1, are for power sold to so-called "preference customers" from five Bureau of Reclamation projects serving 14 western states.

Under federal law, public power agencies are given preference in buying low-cost power from federal hydroelectric dams.

The five projects at which rates were increased are the Central Valley Project in California, the Colorado River Storage Project, the Parker-Davis Project, the Eastern and Western Divisions of the Pick-Sloan Missouri River Basin Program, and the Rio Grande

#### Third Robber Convicted In Tiffany Heist

SANTA MONICA (UPI)-Jimmie Franklin Jr. Thursday became the third person to be convicted in the \$400,000 jewel robbery of Tiffany & Company in Beverly Hills.

Franklin, who will be sentenced June 12, was convicted of first degree robbery, first degree burglary and assault with a deadly weapon.

Robert Miller and Charles Wilbourne Jr. have already been convicted in connection with the daring daylight robbery. Another defendant, Bryan Thomas, was scheduled to go on trial Monday.

Three more suspects were being sought.

#### Former Chief Sentenced For Taking Bribes

SANTA BARBARA (UPI)-A former police chief of a small lown in the northern part of the county was sentenced Thursday to two terms of one to 14 years in state prison for accepting bribes totaling \$600.

# YOUR HOROSCOPE 📚 L By Jeane Dixon 🙈

SUNDAY, MAY 19

Your birthday today: Precipitates momentary crisis, which is faced only by getting back to fundamentals. You must be conscious of what you really want and have the determination to do something constructive about it. Relationships are tested and, for the most part, evolve into new forms. Today's natives are magnetic, stoical, prone to display subtle clues to deep spiritual strength without personally being aware of doing

Aries (March 21-April 19): Put your main attention on smoothing out home and family conflicts, particularly parents' concerns. Improvement of your material possessions is underlined.

Taurus (April 26-May 20): Be ready for your share of the community's expression of faith. Old friends are actively involved in almost all your enterprises, so it's difficult to maintain your reserve. Gemini (May 21-June 20):

Take care not to skip anybody who's expecting you. There's nothing like making a full account of your recent past. Ask yourself what you have done lately in the way of a health program.

Cancer (June 21-July 22): Your friends open many doors for you, including a few you'd be wise not to enter. Give extra thought to what you're doing and whom you're working with.

Leo (July 23-Aug. 22): Slow progress is normal and reasonable. There are enough details to keep you occupied all day. Time put in sharing pastimes, competitive games or sports of your choice is well

Virgo (Aug. 23 - Sept. 22): Resolve to make maximum use of this serene Sunday for prayer, planning, and pleasant social contacts. Forgive everybody, settle all differences in all directions.

Libra (Sept. 23-Oct. 22: Be prompt and proper, do your fair share of the community's normal Sunday customs, then see what you can do for those you've overlooked of late.

21): With no particular pres- wife.

sure on, you can enjoy moving steadily through a good Sunday's round of activity without haste or waste. Planning helps, so does thrift.

Sagittarius (Nov. 22-Dec. 21): Your day should be carried out in leisurely fashion. Mental pursuits are favored over strenuous activities. If you travel, make sure all who need to know are told where

Capricorn (Dec. 22-Jan. 19): With just a trifle more effort, matters that have been bothering you come out well, in fair balance today. There's time for everything and nearly everybody.

Aquarius (Jan. 20-Feb. 18): Be at home and in your glory - or out on the road and probably inconvenienced or at some destination you hadn't planned. Your property needs definition, clearing up.

Pisces (Feb. 19-March 20): It's a long Sunday in which you can do many useful and pleasant little things for yourself and your younger associates, perhaps children. The expense is not very high.

#### Copter Dumps Leaflets Asking Killer To Talk

PONCE, P.R. (UPI) - Police helicopters Wednesday dumped thousands of leaflets on rugged mountains in central Puerto Rico where an escaped murderer and accused kidnaper-murderer has eluded a police dragnet for more than two months.

The leaflets contained an appeal from the fugitive's mother asking him to meet her and six other intermediariesall of whose pictures are on the

The leaflets promised police would not pursue him.

Police began the chase of Antonio Garcia Lopez, 31, two months ago after he allegedly kidnaped two women. The women were later released, but in the last two weeks, he picked up three other women, apparently by force. They also were released later. He was earlier Scorpio (Oct 23-Nov. convicted of murdering his

CARACAS (UPI)-Exxon subsidiary Creole Petroleum Corp., the largest oil producing company in Venezuela, Friday expressed hope that it would have a role in supplying technology, administrative and marketing skills, following state takeover of the industry.

In a statement issued 24 hours after President Carlos Andres Perez announced his government's decision to proceed immediately to reversion of oil company assets here, Creole said Venezuela was entering a 'new and complex stage" of oil reversion.

"We sincerely hope that the decisions that are finally adopted by Venezuela will allow us to continue to give service to the country from the viewpoint of technology, administration and marketing, with the efficiency that has always characterized

#### La Palma Park Action Slated

LA PALMA — The city council Monday night is expected to give final approval to the general design of La Palma's proposed Central Park.

Earlier this month the council held a public hearing on design plans for the seven-acre facility, which, when built, will become the city's largest park.

The council also is slated to resume consideration of a proposal by a resident, Jane Armbruster, to develop a bicycle riding course on the Southern California Edison Co. easement.

#### Elks Wind Up Session Today

ANAHEIM - An estimated 10,000 members of the Benevolent and Protective Order of Elks from throughout California and Hawaii are expected to attend the final session today of the 59th annual state convention of the organization.

The four-day Convention Center meeting of the group, which began Wednesday, is being hosted by the Anaheim Elks Lodge.

Delegates attending the event represent 170,000 members of Elk lodges throughout the state and Hawaii.

#### Stock Market Loser Threatens Hex On Broker

TOKYO (UPI) - A woman who lost heavily on the stock market last year threatened to put a lethal curse on the man who handled her account, police said today.

Kiyoko Miyazaki, 46, of Shizuoka Prefecture (state) 60 miles southwest of Tokyo, was arrested for making more than 300 threatening phone calls to a brokerage firm employe and to his neighbors.

She admitted she made the calls and said it was because she lost \$9,604 on the stock market last year.

The target of her wrath. Kunihiko Ichikawa, 31, of Aizawa Securities Co., said he got numerous telephono calls since last September from a woman threatening to kill him

and his family with a curse. Miss Miyazaki also phoned 37 of Ichikawa's neighbors and 29 residents near his office in Fujinomiya, police said.

AF HONOR GRAD - Airman Price C. Hallmann, son of Mr. and Mrs. Don G. Hallmann, 913 E. Nutwood, Fullerton, has graduated with honors from the Air Force communications equipment repair course at Keesler AFB, Miss. He is a 1973 graduate of Fullerton High School.

## Door-Knocker Gets A Ride -The Wrong Way

SAN CLEMENTE—A wetback knocked on the backdoor of a residence on Avenida Vaquero here and asked for help in get ting a ride to Los Angeles, at 5:30 p.m. Wednesday.

He got a ride, but in the wrong direction. The occupant of the house happened to be Police Sgt. Frank Yerger who showed the unlucky man his badge and called the station.

Officers took the man into custody and turned him over to the border patrol for a ride south of the border.

#### Explorers Plan Dumpsite Duty

BREA - Police Explorers will be on duty at the county dump in Carbon Canyon today as part of a county wide "cleanup" program.

The announcement came from Mrs. Carol Wolfert, chairman of the Brea Beautification Committee.

The Explorers will be handing out pamphlets and other literature having to do with laws controlling the hauling and disposing of trash.

The dump also will be open from 8 a.m. to 5 p.m. Sunday and again on May 26. County supervisors last January ordered the dumps closed on Sunday as an energy-saving measure.

EVER STRIVING FOR SOUTHERN CALIFORNIA TO BE AN EVEN BETTER PLACE TO LIVE

#### Let Peace Begin With Me!

This newspaper is dedicated to furnishing information to our readers so that they can better promote and preserve their own freedom and encourage others to see its blessing. For only when man understands freedom and is free to control himself and all he produces can he develop to his utmost capabilities.

We believe that all men are equally endowed by their Creator, and not by a government, with the right to take moral action to preserve their life and property and secure more freedom and keep it for themselves and others.

To discharge this responsibility, free men, to the best of their ability, must understand and apply to daily living the guide expressed in the Coveting Commandment.

#### Case For Medical Safety

medical doctor as a gun-toter, but Medical Economics magazine published a testimonial from a psychiatrist offering several arguments that will

be impressive to some. Dr. James A. Brussel of New York City related that he was getting a bad time from his wife because he had been carrying a .32 caliber revolver. He has never fired the weapon at anyone, but felt the need of some sort of protection because three of his psychiatrist-colleagues were savagely beaten by narcotic addicts. One of the victims had

Brussel went on to describe an event that involved him personally. He said a young man was admitted to his office on the basis of a reference. The following encounter is related in Dr. Brussel's

"He was about 21, tall, well-built, and claimed to be an outpatient at a local methadone clinic that was closed for the day. 'All I need is one lousy pill, Doc,' he insisted. But when I proposed calling the clinic to verify his story, handy. One theme ran he angrily offered me the choice of writing the prescrip-

On another occasion he was accosted while walking to the subway in a high-crime neighborhood at night. A show of strength with the little equalizer resolved the crisis peacefully.

In a third instance the doctor was returning home from the opera with his wife by subway. Coming up the steps to his apartment building, he saw three young men slouched against the wall. He told his wife to get behind him. The follownig exchange then took place.

"One youngster moved in front of us. 'Hold it. . ,' he sneered, 'we got something to say to you.' 'So do I,' I answered, and aimed the revolver at his middle. All three fled

#### Present Lives Vs. Future

The rescue of Jewish school- cessfully rescued the captors, children held hostage by guer- and killed the captors. The rillas demonstrates the merit of resolute action accompanied by intelligence.

Nobody could say in advance how the rescue attempt would turn out. The captors were known to be of a terrorist type that had fully proved its capability for bloodshed. Equally certain was the fact that if the terrorists were successful in obtaining their objective-namely, the release of 20 Arab commandos held by Israeli forces—they would be encouraged to repeat the same tactics again.

The rescuing force was thus faced with a cruel choice. To attempt a rescue was to jeopardize the lives of 85 children. On the other hand, the bargain with the terrorists would be to jeopardize the lives of countless numbers in the future.

The apparent Israeli decision was to play for time by seeming to submit to the bargain. The rescue force then stormed the building where the children were held, suc-

price was 16 children killed and others wounded. The gain was four-fold, from the Israeli standpoint. The 20 commandos still are in custody, the children are out of danger. the terrorists have no basis for encouragement to repeat the hostage-taking tactic. The newspaper accounts

identified the terrorists as Arab guerrillas. From a strict reporting role, such identification was pertinent; otherwise the story would have been incomplete. For the purpose of commentary, it is sufficient to understand that national origin has no bearing on terrorism. Terroristic acts constitute a rejection of civilization. By his deed, the terrorist sets a price on human life, including his. In his own sight, therefore, he is deprived of nothing of value

when he is eradicated. If the American people understood the stakes better so that our lawmen could act with resolution similar to that of the Israel forces, our cities would be far safer.

#### Battin And City Hall

Supervisor Robert Battin is people in his line of work do getting a taste of the kind of medicine he and his fellow politicians hand out continuously to tax payers.

He's being "picked on" by a government agency. It is all because a residence he purchased is being used also for a law office. And since it is used for business purposes, it must conform to business building codes, says the bureau that looks after that sort of thing for the city of Santa Ana.

But Battin apparently likes the house the way it is, and has refused to let inspectors in to see if alterations have been made as ordered.

If he is sincere in wanting to retain the character of his residence, we can appreciate his problem, and we have sympathy for his plight. But this is just the sort of thing

to others every day. Conform or suffer the wrath of the government.

Since he is an attorney and a politician, he should be familiar with the regulations and certainly familiar with the fact that the government has the power to enforce its regulations.

But he issues this statement that he is being picked on because he is opposed to Nixon. He's a democrat, and the officials asking him to comply with regulations are republi-

We suspect he was looking for some headlines since he's trying to get the nomination for Lieutenant Governor. He got his story all right, but what it really says is that politicians figure the rules that apply for ordinary folks should not apply to the elite.

SACRAMENTO (Capitol)— Stripping the Federal Communications Commission of its licensing power should be done now before the body tries to extend its authority over the newspapers.

This is the opinion of former United Press International editor H. Roger Tatarian who now is a professor of journalism at Fresno State University.

Tatarian pointed to the rapid advances made in newspaper production and he believes someday newspaper will be transmitted into the home by way of broadcast air waves which would set the stage for FCC intervention.

Since his return to academic ranks, the professor said he is even more impressed "by the power and influence of a free press and of the dangers of government control (of the

"The time has come for preventive and creative new steps" to protect newspapers and others from further government control of news.

He had reference to attempts former Vice President Spiro T. Agnew made to muzzle the news media, and aggressive moves made by Clay T. Whitehead, director of the White House Office of Telecommunication to apply government controls.

However, Tatarian said, if it wants to avoid government interference, the news media must be willing to police it-

#### KERSHNER'S COMMENTARY

# Profit Is Market's Means Of Control

By HOWARD KERSHNER

vention.

Profit is the regulator which moves capital, manpower and goods away from industries and services less in demand and into the making of goods and the rendering of services that are more in de-

When profits are small in a given industry or service, the marginal producers in that line transfer their activity to something that is more profitable, that is, to something that the people want and are willing to pay for, as distinguished from services and goods that are less in demand and afford little or no profit to

those who engage in them. To roll back prices means to roll back profits and discourage additional capital and manpower from entering into those activities. This means greater scarcity. On the other hand, if profits remain high, new capital, manpower and raw materials will be drawn into that particular industry or service, which will soon overcome the shortage and produce abundance. At that point, profits fall. In a free market these adjustments are made automatically every day. The result is maximum production at minimum cost. This is the only road to free-

dom and prosperity. A buyers' meat strike will make it less profitable for meat producers to enlarge their activities. They will not expand their herds and their facilities as long as the market is sluggish and affords them little profit. On the other hand, if profits are large, additional entrepreneurs will be drawn to that line of activity, production will increase and prices will fall until profits become normal once more. Very few people understand the importance of relative prices, that is, of balance or reciprocal relationships between the differing groups of producers.

To oversimplify, if I make hats and you make shoes and we exchange one hat for one pair of shoes, we can both be fully employed and prosperous all the time. But if I decide that one hat is worth two pairs of shoes, I block the exchanges and you and I are both unemployed.

Government intervention always destroys reciprocal relationships. This is the principal cause of shortages. The free market, with no government intervention and no labor union pressure to establish wages out of line with what workers in other activities are receiving, is the way to perpetual prosperity.

When men and women are paid for their contribution, in accordance with the value their fellows place on the goods or services they produce as established in the free market, there is no such thing as serious or long-term depression. If we would learn this lesson, our country could go on to undreamed of heights of prosperity and well-being.

The article attempted to leave the (uninformed) reader with the idea that while the police were out beating and killing citizens and lying about evidence they are amassing clandestine dossiers on the general public in our county. What the article omitted was the fact that organized crime, the very real, very much alive "Mafia" does not yet have a controling Orange County "Family" concriminal troling activity. . .nor did we learn that they are working hard to develop this affluent county so they can increase their profits beyond the \$20 to 50 billion dollars they ripped off last year, nationwide.

The Register also neglected to mention that it was the "police" themselves who didn't condone criminal activity in their ranks and brought alledged violators to trial where they were acquitted or convicted by the courts.

Regardless of how the Register distorted or omitted facts. . . . there are some the general public should be aware of: 1. Organized Crime can and

appears to believe that one who does not share his particular view is guilty of some moral offense that is correctible by police action. He misquoted us somewhat. We do believe that local police has expertise in the ferreting of organized crime and also in such areas as stock theft and the traditional con games. Stock fraud (a field in which we believe expertise is hardest to come by) is a different subject area. Perhaps, the writer should go back and see what we really said.

Nixon talked of aid to the handicapped. It came through clear that the Labor Department was set to move swiftly on this front. There are 11 million handicapped persons in this land. Look about you. Is there a street, rich or poor, ghetto or Park Avenue, on which some physically or mentally handicapped person or child doesn't tread?

Well, there now will be enforcement of affirmative action employment of the handicapped by any corporation doing more than \$2,500 worth of business with the federal government. This means the same affirmative action, the standard now being applied to blacks and other minorities and women. It means handicapped persons will have to be employed, trained and promoted. to act, continued the President. Three years are too long to wait. This is a bipartisan bill, good for labor, good for management and frankly it's good for the country. One of the bills he referred

to is the unemployment insurance proposal to extend payments an additional 13 weeks where there is an emergency and to permit cities and communities to so move when their own locality is hit by 4 per cent unemployment instead of waiting for the whole state to average a 4 per cent joblessness. This would help a hapless Detroit, even if the rest of Michigan were doing well for example.

Technically this is the "metropolitan labor market"

He was atop all the issues -at least inside the White House. How he feels in the upstairs living quarters is a story to which not many are privy. Downstairs it's normal.

#### TREND AWAY FROM PARTISANSHIP

# Party Of Politically Uncommitted Grows

By MARY K. SHELL Capitol News Service

SACRAMENTO (Capitol)— Californians are moving away from the two major political parties-not in any great numbers, but if the trend continues, the future look bright bled in percentage. for a new party or a growing

army of the uncommitted.

The trend toward registering as Decline to State or Independent or Nonpartisan hasn't come on since Watergate. It was well established back in the 60's, perhaps by the new, young voter who could not identify as a Republican or Democrat. It was in those years that the young started to intensely examine all establishments and standards, and were not content to accept anything, including a political party, on face value -or just because it was ac-

cepted by Mother and Daddy. But what should have been a temporary situation (the registration as Declined to State, postponing the decision to choose a party) has grown into a trend.

Certainly most Californians

years later, the Declined to State figure is up to 5.7 percent. On a graph, the increase looks like a climb up Mt. Everest (and maybe that's what they intend to do politically). In the same period of time, however, the Democrat percentage has dropped to 55.6 percent and the GOP registration now accounts for 37.6 per cent of the total—down 3.1 percent from 1964.

PING PONG TITLE

Dear Trouble Shooter

We are looking for novice ping pong players for the second annual Ping Pong Tourn-A-Thon to be co-sponsored Aug. 8 through 11 by the Easter Seal Rehabilitation Institute of Orange County and the California Angels.

The tournament will run continuously, day and night, at the Quality Inn in Anaheim. We are now lining up amateur players and would appreciate your asking anyone interested in participating to call Ginny Reid at 633-7400 (Extension 35).

Players of all ages are invited to sign up.

Orange

The Trouble Shooter reckons most of your players will come from teenagers and their parents, Ma'am. That's why he's printing your letter in today's column.

ANIMAL TRAINING

Dear Trouble Shooter

1 would very much like to get into the field of animal training but have no idea how to go about it. I would like to learn to train both domestic and wild animals.

This is most important to me. Can you help?

Brea
Classes in wild animal
training are offered at Moorpark College, Moorpark, Ca.,
and animal husbandry courses are available at the University of California-Riverside.

EERIE DATA Dear Trouble Shooter

We realize our request is going to sound a bit strange, but it is important to my friend and to me.

We are in a science fiction class at Rancho High School and we study everything from Bigfoot to UFOs to ESP and the occult. As the end of the school year nears, we find that we will have to complete a term paper. Our term papers will be on ESP and Chiromancy (palmistry).

It would be of great help to us if some of your readers could spare the time to send us a letter about any personal experiences with ESP or palmistry. Did any of it come true, etc.?

They can mail their letters about ESP to Debbie Wagner and about palmistry to Julie McLean. They can use the same address for both of us: 11611 Poes St., Anaheim 92804.

J. McL. and D.W. Analieim

You should start receiving some mighty interesting mail any day now, little ladies. Good luck with your papers'.

CHEER NEEDED Dear Trouble Shooter

Most of your readers know what it's like to be cooped up with a sickness. I know someone who's sick with mononucelosis in the hospital. He is 15 years old.

I know he would appreciate it if anyone could take just a minute and send him a note or a card. He can't have visitors and will be hospitalized for quite a while.

K.W. Orange

Folks who would like to cheer a young man up a bit can address their cards and letters to John Woodward, Room 408, Tustin Community Hospital, Tustin.

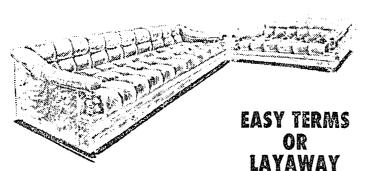

# New Hours Set For Reservoir Chlorination

San Clemente — The Tri Cities water reservoir will in the future be chlorinated every day between 1 and 3 a.m. rather than at 8:30 a.m., said Supt. Bud Deffley in order to keep the sun from dissipating the chemical too fast.

The timing of the chlorine addition was a recommendation by Anaheim biologist Mike Philp who was called in by the board of directors of Tri Citics Municipal Water District to help solve problems with freshwater shrimp and algae which were recently in the reservoir.

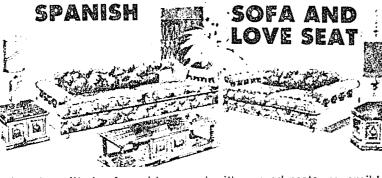

The chlorine is killing off the shrimp and algae.

#### Try-Outs Set

SANTA ANA-Santa Ana College will hold tryouts in June for their summer musical, "Promises Promises."

The Broadway musical production is an adaptation of the movie "The Apartment" which starred Jack Lemmon and Shirley Mac Laine.

Due to Phillips Hall remodeling at SAC, the production will be presented in the city hall annex theater, Santa Ana Blvd. and Ross St., Santa Ana, in the Civic Center area.

Tryouts will be held there, too, at the following times: June 1, from 2 to 5 p.m.; and June 3-4, from 7:30 p.m. until 10

Bob Blaustone will be director, assisted by Tom Brucks, technical director, both heading up the SAC Theatre Arts Department, Dr. Warren Marsh will serve as music director assisted by Ben Glover of SAC. Choreographer will be Martie Hunt of the City Parks and Recreation Department.

#### LB Lifeguard Gets New Post

LAGUNA BEACH-Veteran ifeguard Bruce Baird has been named to the newly created post of chief of marine safety by the city council.

Baird, whose annual salary will be \$12,000, replaces Skip Conner in directing a summer guard staff of 55. Conner resigned April 10.

The council this week, however, eliminated Conner's post, director of marine environment, which included administrative responsibilities that will now be assumed by City Manager Al Theal's staff.

you'll ride doesn't make any stops along the way. So you'll make the same speed you would if you drove yourself.

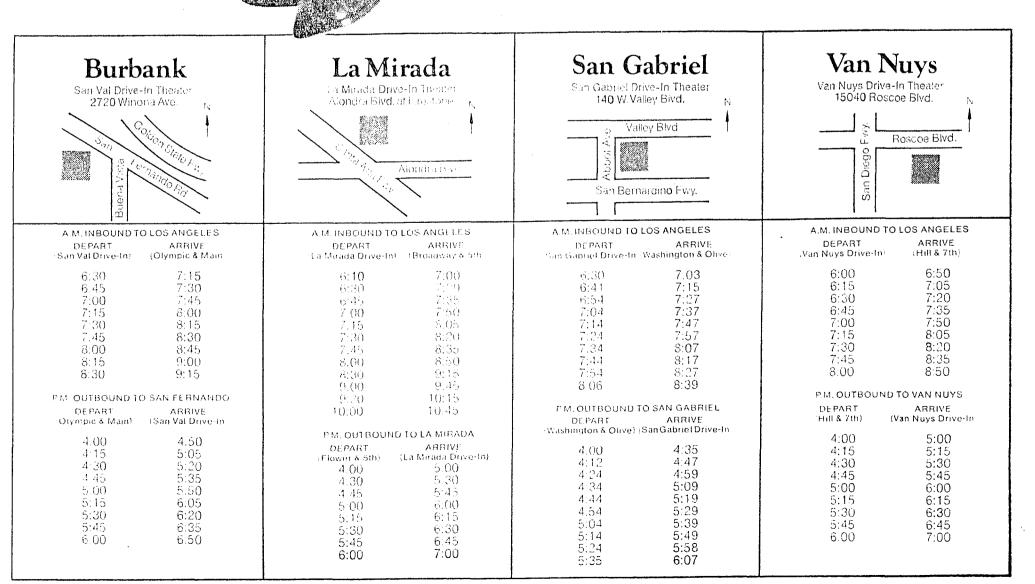

Meanwhile your car will be basking under the watchful eye of a security guard. It won't be burning any gas, wearing itself out, wearing you out, polluting the air or taking up highpriced downtown real estate. And, of course, it'll be waiting for you

Freeway Flyer back after work. The cost of all this convenience is an incredible \$12 a month. (Or 75¢ a day for anybody who'd like to sample the service first.) Which is a lot less than you're paying just to park, isn't it? The \$12 price includes a monthly RTD pass, by the way. So, in case the Freeway Flyer doesn't take you exactly where

banks to raise their prime lending rate to a record 111/2 per cent dealt stock prices a heavy blow on the New York Stock Exchange Friday. Trading was moderate.

The Dow Jones industrial average, sinking steadily throughout the day, fell 16.50 to 818.84. Standard & Poor's 500-stock index fell 1.56 to a 1974-low of 88.21. The S&P index is a broader indicator than the Dow, and while the Dow has held up reasonably well this year, the extreme weakness of the S&P illustrates how the market as a whole has suffered from lack of investor interest.

There was a loss of 53 cents in the price of an average common share. Point-sized losers were scattered throughout the list, as losers far outnumbered gainers, 1,233 to 229, among the 1,786 issues traded. A total of 340 stocks set new lows, only four made new highs.

The moderate turnover, as well as a general lack of institutional activity, suggested a downward drift, rather than Thursday's 12,090,000 shares.
The rise to an 11½ new base land:

rate borrowers surprised no .05 7-15 7-14 one on Wall Street. But the 6-14 rapidity with which the rate spread among large banks confirmed that upward pressure on that key rate-in the form of soaring loan demand -remains intense.

Further disheartening news came from the Commerce Department, which reported the Gross National Product declined at a revised 6.3 per cent annual rate in the first three months of the year-the biggest drop since the 1958 recession. Inflation spurted at an annual rate of 11.5 per cent. It was felt the figures make

less probable an economic re-NEW YORK (UPI) - Re- covery in the second half of

Other outside factors weighed on investors, including Watergate and the flare up in the Middle East.

News that Jamaica is seeking to raise its taxes and royalties on bauxite, the ore from which aluminum derives, put aluminum stocks on the selling block.

Alcan Aluminium, the volume leader, fell 1/2 to 291/4 on 292,200 shares including a 100.000-share block at 28%. Alcoa dropped 1/4 to 443/4 on 143.200 shares, despite news it is raising prices on primary aluminum ingots.

Anaconda declined 1% to 24%, following a 1% - point slide the previous day. The company said Thursday a hike in Jamaican bauxite taxes would add \$10 million to \$12.5 million to Anaconda's

Viriginia Electric & Power, second most active, dropped % to 11% on 200,800 shares, including a 106,900-share block at 111/4. International Telephone & Telegraph Corp. followed, off 3/8 to 175/8 on 172,600 shares.

Paper stocks were hit hard. A Wall Street column discussed analysts' uncertainty over whether the economy can maintain high demand and production for paper products into 1975. Among the losers, International Paper dropped 1%, Kimberly-Clark 11/2, St. Regis Paper a point and Crown Zellerbach 1/2.

Oils weakened, partly in response to current Middle East problems. Mountain Fuel Supply and Superior Oil each fell 2, Getty 4, Phillips Petroleum 1% and Exxon 1%.

Blue chip chemicals, strong performers the past few weeks, were hit by profit taking. DuPont skidded 41/8, Allied Chemical 21/4, Dow and Eastman Kodak 1% apiece.

Gold mining stocks were virtually alone among the gainers. The group often moves contrary to the general market. Dome Mines added 3% and Homestake Mining

Stocks on the American Exchange also slumped in stepped-up trading. The price of an average common share gave up 19 cents. Sales totaled 2,370,000 shares, compared with 1.540,000 shares exchanged Thursday.

# 2nd and Final Weekend of the Zaniest Event in RV History

(The Managers Can't Stand Another Week)

## BOB DUNCAN

**MANAGER OPEN ROAD** ANAHEIM

"With your help I'll be in 1st place by Sunday. I told my mother I wouldn't let her down and I won't. She is going to the fair - I'm giving discounts, appraisals and terms that are ridiculous. I've just got to outsell the other stores for my wonderful mother."

## JIM LUBER

**MANAGER** OPEN ROAD SOUTH IN CARSON

"I've entered my mother-in-law, I'm in 1st place, but by a narrow margin. She calls every hour to see how we stand. She told me to give all the profit away and make you a deal you can't refuse. She means business! I've got to make a deal - I'm starting to show the strain."

### MICKEY RICH

MANAGER **OPEN ROAD** THE VALLE'

"My mother-in-law was my entry. She should be a sales manager. . . She's used her gentle persuasion so well that I'm a nervous wreck. She checks all the appraisals and discounts to make sure I'm giving enough I must be in the #1 spot by Sunday. See me personally at Open Road the Valley today!"

MANAGER **OPEN ROAD HUNTINGTON BEACH**

EACH

"Help send my mom to the World's Fair and I'll let you help yourself to the wildest deal you've ever seen. I'm working 12 hours a day to make sure that I don't let my mother down. I promised her and I promise you that no reasonable offer will be refused. Open Road Huntington Beach will win if I have anything to say about it."

We Unleased the World's Greatest Power on Our Salesmen & Managers!!

Mom is putting the old squeeze on the boys to make you an incredible deal in any of our four giant Open Road RV Centers. Each mother or mother-in-law wants to go to the World's Fair in Spokane and they are urging the boys to win. (You know how powerful a mother's urging can be.) The only way the boys can win is by undercutting each other's prices, outappraising each other and by figuring weird and

THE BIG WINNER AT OPEN ROAD IS YOU!

Mercedes-Benz has a better resale value than any luxury car made in America. According to the automobile industry's

253 IMPORTED CARS

most authoritative sources, all domestic cars depreciate faster than a Mercedes-Benz.

Even after five years, the average Mercedes-Benz retains over 50 percent of its initial price. Isn't this the year you should buy a Mercedes-Benz? Call us today.
